CHAPTER 6. BOARD OF BEHAVIORAL HEALTH EXAMINERS

PREAMBLE

1. **Sections Affected** **Rulemaking Action**
R4-6-604 Amend
2. **The specific authority for the rulemaking, including both the authorizing statute (general) and the statutes the rules are implementing (specific):**
Authorizing statute: A.R.S. § 32-3253
Implementing statute: A.R.S. §§ 32-3253, 32-3311, 32-3313
3. **The effective date of the rules:**
November 5, 1998
4. **A list of all previous notices appearing in the Register addressing the adopted rule.**
Notice of Rulemaking Docket Opening: 4 A.A.R. 1627, July 6, 1998.
Notice of Proposed Rulemaking: 4 A.A.R. 2209, August 14, 1998.
5. **The name and address of agency personnel with whom persons may communicate regarding the rulemaking:**
Name: Celia Patrick, Office Manager
Address: Board of Behavioral Health Examiners
1400 West Washington, Suite 350
Phoenix, Arizona 85007
Telephone: (602) 542-1893
Fax: (602) 542-1830
6. **An explanation of the rule, including the agency's reasons for initiating the rule:**
This rule is updated for clarity and correction of an error promulgated in a previous rulemaking. The number of admissible hours for group supervision is changed from 50 hours to 100 hours.
7. **A reference to any study that the agency proposes to rely on in its evaluation of or justification for the proposed rule and where the public may obtain or review the study, all data underlying each study, any analysis of the study and other supporting material.**
None.
8. **A showing of good cause why the rule is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:**
Not applicable.
9. **The summary of the economic, small business, and consumer impact:**
The original intent of this Section was to clarify statute requirements for obtaining a Marriage and Family Therapy certification. A.R.S. § 32-3311(C) requires that to obtain a Marriage and Family Therapy certification, *one hundred hours of individual supervision be applied toward the combination of two hundred hours of group or individual supervision in the provision of marriage and family therapy.* This requirement leaves 100 hours remaining in the 200-hour combination which may be applied toward a certified therapist's group supervision requirement. The current rule allowing that 50 hours of group supervision be applied toward the total 200 required hours for direct supervision is in error. This rulemaking changes the number of admissible hours for group supervision from 50 hours to 100 hours.
 - A. *Estimated Costs and Benefits to the Board of Behavioral Health Examiners.*
This rulemaking clarifies the requirements for Marriage and Family Therapy certification. By ensuring understanding of persons reading this rule, there is a potential for cost savings by reduction in time by personnel attempting to answer questions pertaining to the number of hours actually required for group certification. No additional costs will be incurred by the Board.
 - B. *Estimated Costs and Benefits to Political Subdivisions.*
Political subdivisions of this state are not directly affected by the implementation and enforcement of this rulemaking.
 - C. *Businesses Directly Affected By the Rulemaking.*
By changing the 50 hours of group supervision to 100 hours it *appears* to afford an applicant an opportunity to obtain more group supervision hours towards the 200 required hours of group or direct supervision. An increase in the number of hours allowed for group supervision should allow more people to be certified as Marriage and Family Therapists and shorten the time-

Notices of Final Rulemaking

frame for certification. However, this change is simply correcting a rulemaking error. The statutory requirement of 100 hours for group supervision invalidates the 50-hour rule requirement. This current rulemaking provides an applicant with clear understanding of the requirements of the program. This rulemaking has no reducible impact on small businesses or consumers.

D. Estimated Costs and Benefits to Private and Public Employment.

Private and public employment are not directly affected by the implementation and enforcement of this rulemaking.

E. Estimated Costs and Benefits to Consumers and the Public.

Changing the number of group supervision allowed hours will not affect consumers or the public because the statute requirement that 100 hours of direct supervision be applied toward the required 200 hours of group or direct supervision. This rulemaking has no reducible impact on small businesses or consumers.

F. Estimated Costs and Benefits to State Revenues.

State revenues are not directly affected by the implementation and enforcement of this rulemaking.

10. A description of the changes between the proposed rules, including supplemental notices, and final rules (if applicable):

Grammatical and clarification changes were made at the request of G.R.R.C. staff. No substantive changes were made.

11. A summary of the principal comments and the agency response to them:

None.

12. Any other matters prescribed by statute that are applicable to the specific agency or to any specific rule or class of rules:

13. Incorporations by reference and their location in the rules:

5. The name and address of agency personnel with whom persons may communicate regarding the rulemaking:

Name: Ms. Alexis Kjellstrom

Arizona Administrative Register

Notices of Final Rulemaking

Address: Board of Optometry
1400 West Washington, Room 230
Phoenix, Arizona 85007

Telephone: (602) 542-3095

Fax: (602) 542-3093

6. An explanation of the rule, including the agency's reasons for initiating the rule:

The current rules regarding the practice of optometry are being amended and expanded to ensure conformity with current optometry statutes and rulewriting standards. The rules are being updated to reflect the statutory amendments enacted in 1993 that expanded the optometric scope of practice. Definitions used in the optometry rules are being clarified and additional definitions are being added. Fees for licensing and biennial license renewal are being raised. In addition, new fees are being added for the registration and biennial registration renewal for nonresident dispensers who wish to fill prescriptions for replacement soft contact lenses. These new fees are in a rule package that was approved by GRRC at its September meeting but are included to reflect the rule, R4-21-103, as it will be when made effective by the filing with the Secretary of State. Licensing time-frames are being established for all licensing activities of the Board as required by A.R.S. § 41-1072 *et seq.* Application requirements are being clarified and made more specific. The approval of courses of study is being revised and the issuance of topical pharmaceutical agent certificates is being added. The standards of care for conducting eye examinations are being clarified and detailed. A new Article 4 is also being added to prescribe the public participation procedures which are observed by the Board and required by A.R.S. § 41-1003.

7. A reference to any study that the agency proposes to rely on in its evaluation of or justification for the proposed rule and where the public may obtain or review the study, all data underlying each study, any analysis of the study and other supporting material:

None.

8. A showing of good cause why the rule is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:

Not applicable.

9. The summary of the economic, small business and consumer impact:

Cost impacts for the Board will be minimal and include the cost of the rule consultant assisting with this rule promulgation. There is also a remote possibility of additional cost to the Board in the event that it fails to meet the licensing time-frames and must refund licensing fees. These rules essentially codify the current Board practices. Cost impacts on currently licensed optometrists, or their employers, as well as applicants for licensure will be affected as both the initial licensure fee as well as the biennial licensure renewal fee are being raised from \$150 to \$200, and \$300 to \$400, respectively. The fee increase is necessitated by a projected budget shortfall beginning in fiscal 1999 of \$17,800. Additional revenues to be generated during each 2-year budget cycle are expected to be about \$33,000. The result of the fee increase then is to generate additional revenues for the Board, thereby increasing state revenues, to meet this shortfall. It is not anticipated that changes to the continuing education rule provisions will increase costs to licensed optometrists as the number of required hours is not being changed. Benefits of these rules are, for the most part, undefinable in economic terms, as they primarily clarify the practice of optometry in Arizona. However, the single greatest economic benefit of these rules for optometrists and applicants for licensure is the opportunity to practice optometry and derive income from that practice.

The cost of promulgating these rules will also have a minimal impact on the Governor's Regulatory Review Council and the Secretary of State's Office. No impacts are expected for any other agencies or political subdivisions of the state. The cost impact on individual optometrists as a result of this rule package is so minimal that there is no cost impact anticipated for consumers.

10. A description of the changes between the proposed rules, including supplemental notices, and final rules (if applicable):

Some minor changes were made to the rules in response to comments provided by the Office of the Secretary of State following the filing of the Notice of Proposed Rulemaking. Several other typographical errors were brought to the Board's attention and corrected.

At A.A.C. R4-21-305(A)(1), and the expiration date of the prescription was added after the word examination to clarify a labeling requirement.

At R4-21-203(B)(3) and (C)(4), the following sentence is added to clarify the nonrefundable nature of fees: Fees are nonrefundable in accordance with A.R.S. § 32-1727(B).

At R4-21-203, the time-frame for an applicant to respond to a deficiency notice or request for additional information is lengthened to 20 days for all licenses, certificates, and approvals to permit applicants additional time to comply and avoid having an application deemed withdrawn.

R4-21-302(C) is revised to read as follows: An optometrist shall have knowledge of and be professionally responsible for the contents of any advertisement or directory that includes the name and address of the optometrist.

11. A summary of the principal comments and the agency response to them:

A. General Comments

Arizona Administrative Register
Notices of Final Rulemaking

One written comment was received during the formal comment period. No oral comments were received at the public hearing for the proposed rules. The Office of the Secretary of State noted some typographical errors in the proposed rule package that were corrected.

B. Issues Raised by the Public During the Rulemaking Process

1. R4-21-203

ISSUE: In the 1 written comment received, it was suggested that the time-frames in R4-21-203 for an applicant to respond to a deficiency notice in the administrative completeness process and to respond to a request for additional information in the substantive review process in the initial license, renewal license, or TPA certification procedures do not allow for a valid justification for a failure to respond. It was suggested that a good cause exception be added.

EVALUATION: The Board believes that the requirements of the application process are sufficiently clear and simple that additional extensions should not be needed. However, to permit some additional time because such materials usually are transmitted by mail, the time-frames for an applicant to respond to both the administrative completeness and substantive review deficiency or information request for all licenses, certifications or approvals is changed to 20 days.

2. R4-21-203(B)(3) and (C)(4)

ISSUE: The commentor inquired what happened to the application fee when an application was deemed withdrawn. It was suggested that the Board include this information.

EVALUATION: Although A.R.S. § 32-1727(B) addresses this issue, the Board agreed to add the following sentence to each subsection: Fees are nonrefundable in accordance with A.R.S. § 32-1727(B).

3. R4-21-302(C)

ISSUE: A commentor suggested that the word considers is not clear in its legal significance. It was suggested that the following be added: "It shall be a rebuttable presumption that an optometrist whose name and address appears in an advertisement or directory has knowledge of the contents of the advertisement or directory."

EVALUATION: The Board believes that a licensed optometrist should be responsible for advertisements in which the optometrist's name appears. The Board believes that it is a matter of public health and safety to prevent misleading or deceptive advertising in any form. For clarification, the Board is amending R4-21-302(C) as follows: "An optometrist shall have knowledge of and be professionally responsible for the contents of any advertisement or directory that includes the name and address of the optometrist."

12. Any other matters prescribed by statute that are applicable to the specific agency or to any specific rule or class of rules:
Not applicable.

13. Incorporations by reference and their location in the rules:
The following incorporations are made at R4-21-304(A):

ARTICLE 1. GENERAL PROVISIONS

R4-21-101. Definitions

In this Chapter, unless the context otherwise specified requires, the following definitions of terms mean shall apply:

1. Approved course of study in clinical pharmacology means a course or group of courses which contain the subjects described in R4-21-203.
1. Accredited means that an educational institution is officially approved by the New England Association of Schools and Colleges, Middle States Association of Colleges and Secondary Schools, North Central Association of Colleges and Schools, Northwest Association of Schools and Colleges, Southern Association of Colleges and Schools, Western Association of Schools and Colleges, or the American Optometric Association Council on Optometric Education.
2. Application means forms designated as applications and all documents and additional information the Board requires to be submitted with an application.
23. Board means the Arizona State Board of Optometry.
34. Incompetence means:
 - a. Lack of professional skill or fidelity in performing the practice of optometry;
 - b. Treatment in a manner contrary to accepted optometric practices; or
 - c. Lack of physical or mental fitness to discharge professional duties.
5. Licensure by examination means an applicant has met the examination requirements of A.R.S. § 32-1724.
6. Licensure by reciprocity means an applicant has satisfied all of the requirements of A.R.S. § 32-1723.
7. Low vision rehabilitation means evaluation, diagnosis, management, and treatment, including the prescribing of corrective spectacles, contact lenses, prisms or filters; or the employment of any means for the adaptation of lenses.
8. National Board means the National Board of Examiners in Optometry.
9. National Board Exam means the optometry examination administered by the National Board. The Board may approve portions of the National Board exam for purposes of licensure.

One written comment was received during the formal comment period. No oral comments were received at the public hearing for the proposed rules. The Office of the Secretary of State noted some typographical errors in the proposed rule package that were corrected.

B. Issues Raised by the Public During the Rulemaking Process

1. R4-21-203

ISSUE: In the 1 written comment received, it was suggested that the time-frames in R4-21-203 for an applicant to respond to a deficiency notice in the administrative completeness process and to respond to a request for additional information in the substantive review process in the initial license, renewal license, or TPA certification procedures do not allow for a valid justification for a failure to respond. It was suggested that a good cause exception be added.

EVALUATION: The Board believes that the requirements of the application process are sufficiently clear and simple that additional extensions should not be needed. However, to permit some additional time because such materials usually are transmitted by mail, the time-frames for an applicant to respond to both the administrative completeness and substantive review deficiency or information request for all licenses, certifications or approvals is changed to 20 days.

2. R4-21-203(B)(3) and (C)(4)

ISSUE: The commentator inquired what happened to the application fee when an application was deemed withdrawn. It was suggested that the Board include this information.

EVALUATION: Although A.R.S. § 32-1727(B) addresses this issue, the Board agreed to add the following sentence to each subsection: Fees are nonrefundable in accordance with A.R.S. § 32-1727(B).

3. R4-21-302(C)

ISSUE: A commentator suggested that the word considers is not clear in its legal significance. It was suggested that the following be added: "It shall be a rebuttable presumption that an optometrist whose name and address appears in an advertisement or directory has knowledge of the contents of the advertisement or directory."

EVALUATION: The Board believes that a licensed optometrist should be responsible for advertisements in which the optometrist's name appears. The Board believes that it is a matter of public health and safety to prevent misleading or deceptive advertising in any form. For clarification, the Board is amending R4-21-302(C) as follows: "An optometrist shall have knowledge of and be professionally responsible for the contents of any advertisement or directory that includes the name and address of the optometrist."

6. An explanation of the rule, including the agency's reasons for initiating the rule:

As part of the Board's 5-year rule review approved by the Governor's Regulatory Review Council on September 9, 1997, the Board identified sections of rule that should be repealed. This rulemaking will repeal those sections.

Article 8, Poison or Hazardous Substances, is completely repealed because:

1. Changing and expanding market conditions over time lead to nonenforcement of many parts of the rule; and
2. The language in statute, A.R.S. § 32-1972, is sufficient to protect the public health and safety.

Section R4-23-1002 is repealed because it not only lacks clarity, but proposes to legitimize the act of waiving federal regulation by a state agency. The Boards does not believe a state agency has the authority to waive federal regulation. It should also be noted that this Section has never been enforced.

Section R4-23-1004 is repealed because the need for the rule no longer exists. The Section sets limits on the percentage of paregoric that may be present in products sold over-the-counter. Since there are no commercially available products containing paregoric, the rule should be repealed.

The Board believes that repeal of these rules will benefit the public and the Board by eliminating unnecessary, unenforced, or unenforceable administrative language.

Notice of Rulemaking Docket Opening: 4 A.A.R. 1289, June 5, 1998.

Notice of Proposed Rulemaking: 4 A.A.R. 1965, July 24, 1998.

5. The name and address of agency personnel with whom persons may communicate regarding the rulemaking:

Name: Cheri Tomlinson

Address: AHCCCS
801 East Jefferson, MD 4200
Phoenix, Arizona 85034

Telephoner: (602) 417-4198

Fax: (602) 256-6756

6. An explanation of the rule, including the agency's reasons for initiating the rule:

R9-28-402 identifies the factors for determining an applicant's or a member's county of residence for the purposes of determining who is financially responsible for the care of the member. This Section has been modified to:

- Implement changes based on a 5-Year-Review Report of the rule,
- Provide clarification to rule language,
- Separate payment issues from enrollment and eligibility issues, and
- Add alternative home and community based service (HCBS) settings in the rule language.

R9-28-712, *County of Fiscal Responsibility* has been established as a new Section in 9 A.A.C. 28, Article 7 - Standards for Payment. R9-28-402, *County Residency Requirements for ALTCS Enrollment*, has been stricken from 9 A.A.C. 28, Article 4. The Section was removed from 9 A.A.C. 28, Article 4 because the Article discusses eligibility and enrollment issues, and 9 A.A.C. 28, Article 7 discusses standards for payment. In addition, the definition of county of fiscal responsibility was moved from R9-28-104 to R9-28-107 because R9-28-107 is the definition section for terms used in 9 A.A.C. 28, Article 7.

7. A reference to any study that the agency proposes to rely on in its evaluation of or justification for the proposed rule and where the public may obtain or review the study, all data underlying each study, any analysis of the study and other supporting material.

None

8. A showing of good cause why the rule is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:

Not applicable.

9. The summary of the economic, small business, and consumer impact:

The ALTCS elderly and physically disabled population is approximately 15,700 members. This policy does not impact the developmentally disabled population which exceeds 9,100. Of these 15,700 members, 850 or approximately 5.4% resided in an alternative HCBS setting, for the month of August. (These numbers do not change dramatically throughout the year. For example, for the month of May, approximately 10% of the ALTCS elderly and physically disabled population resided in an alternative HCBS setting.) Therefore, a very small number of members could possibly be affected by the change in rule language. Although AHCCCS does not specifically track how many members reside in an alternative HCBS setting in 1 county and who move to another county to reside in an alternative HCBS setting, only 10 cases have been identified during the last 18 months. This number is significantly less than 1% of the total elderly and physically disabled ALTCS population. The remainder of this economic, small business, and consumer impact statement is based on the numerical information described above.

It is anticipated that there may be a moderate impact to program contractors who may have to develop or expand their networks outside of their geographic service area. It is anticipated that the impact to Maricopa and Pima counties will be that other program contractors will continue to be financially liable for members who move from an alternative HCBS setting to another alternative HCBS setting in a different county. There may be a minimal impact on AHCCCS providers who may have an opportunity to expand their business due to a greater need for their services in different geographic service areas. There will be a minimal impact on AHCCCS members who may see an improvement in service because the roles and responsibilities of the program contractor are clearly defined. A nominal impact is anticipated for the counties and the AHCCCS Administration as a result of the changes. Other entities considered, but which will not be directly impacted by the change, include other governmental entities, political subdivisions, and the general public, including taxpayers.

10. A description of the changes between the proposed rules, including supplemental notices, and final rules (if applicable):

The changes between the proposed rules and the final rules are minimal and include:

- Adding the term elderly and physically disabled in R9-28-712(A)(1).
- Adding cross-reference citations in R9-28-712(A)(2).

11. A summary of the principal comments and the agency response to them:

The Administration received comments from 3 entities. Their comments and the Administration's responses are detailed below:

Arizona Administrative Register
Notices of Final Rulemaking

Rule Citation: R9-28-712(C)(1), (2), (3), (4), (5), (6)

Comment: The new language appears to indicate that the member may move to various settings in different counties but does not take into consideration the program contractor's established network. Without this clarification, Cochise County could be fiscally responsible for members who decide to move anywhere in the State, even though the same service may be available in the local program contractor's network.

Response: The Administration agrees that the language could be more clear. To add clarity for program contractors, the Administration has cross-referenced those rules which specify when a program contractor may be liable for a service in R9-28-712(A)(2).

Rule Citation: R9-28-712

Comment: Unfamiliar with some of the acronyms and believe that the rules would be more user friendly if these terms were spelled out.

Response: All of the acronyms have been spelled out in 9 A.A.C. 28, Article 1 - Definitions.

Rule Citation: R9-28-712

Comment: Recommendation that a statement or Section with a reference to the applicant or recipient's appeal process be added.

Response: The recipient's appeal process is governed by both 9 A.A.C. 28, Article 8 and 9 A.A.C. 28, Article 12.

Rule Citation: R9-28-712(C)

Comment: The language used in subsection (C) may be misleading, and does not clearly specify the intent of the rule. The language implies that ALTCS members may move to any Assisted Living Facility within the State of Arizona and remain enrolled with the current program contractor.

Alternative Language: R9-28-712(C)(1), (2), (3), (4), (5), (6) after each statement add "with authorization from the current program contractor".

Response: The Administration agrees that the language could be more clear. To add clarity for program contractors, the Administration has cross-referenced those rules which specify when a program contractor may be liable for a service in R9-28-712(A)(2).

6. **An explanation of the rule, including the agency's reasons for initiating the rule:**
The need for this rule arises from the Legislature's 1995 amendment of A.R.S. § 20-230. This statute permits the Director to adopt rules to address the manner in which retaliatory tax obligations and assessments will be calculated and collected. The Department made the judgment that the current rule fails to satisfactorily implement the provisions of the statute distinguishing between "Arizona life insurers" and "other Arizona insurers". Therefore, the Department has determined that the rule should be amended to revise the definitions and implementation of these terms and to make technical corrections and necessary clarifications.
7. **A reference to any study that the agency proposes to rely on in its evaluation of or justification for the proposed rule and where the public may obtain or review the study, all data underlying each study, any analysis of the study, and other supporting material:**
None.
8. **A showing of good cause why the rule is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:**
Not applicable.
9. **The summary of the economic, small business and consumer impact:**
Arizona law requires an insurance company domiciled in another state or country that does business in Arizona to pay a retaliatory tax if the out-of-state or foreign insurance company's domiciliary jurisdiction requires, in the aggregate, higher taxes from Arizona insurance companies doing business in that jurisdiction. The assessment is of the same type and amount imposed upon similar insurers of the other state or foreign country doing business in Arizona.

The rule implements the portion of the law that also requires retaliation to address inequities arising from taxes imposed by another state's political subdivisions. The policy decision behind the retaliatory tax rule is not to generate revenue for the state, but rather, to provide equal protection to Arizona insurers doing business in other states.

10. A description of the changes between the proposed rules, including supplemental notices and final rules (if applicable):
The Department made 2 technical corrections pursuant to comments made by the Office of the Secretary of State, as well as changes proposed by the insurance industry, as discussed below.
11. A summary of the principal comments and the agency response to them:
The Department received public comments regarding R20-6-206. The comments clarify the wording of R20-6-206 to help insurance company tax return preparers comply with Arizona's local or regional retaliatory tax information law.
12. Any other matters prescribed by statute that are applicable to the specific agency or to any specific rule or class of rules:
None.
13. Incorporations by reference and their location in the rules:
None.
14. Was the rule previously adopted as an emergency rule?
No.
